

# **Unnes Journal of Mathematics Education Research**

# Volume 7 Nomor 2. December 2018

## **DESCRIPTION**

Unnes Journal of Mathematics Education Research publishes articles Scientific research results and studies Conceptual about innovation in education / Mathematics learning.

#### ISSN

p-ISSN 2252-6455 e-ISSN 2502-4507

#### **Managing Directors**

Achmad Slamet Totok Sumaryanto Florentinus Tri Joko Raharjo

### **Editor-in-Chief**

Iwan Junaedi

# Vice Chief Editor

Adi Nur Cahyono

#### **Board of Editors**

Kartono St. Budi Waluya Hardi Suyitno Yl Sukestiyarno

## Layout

Angga Rizky Purwandra

# Administrative Staff

Angga RizkyPurwandra

## PUBLISHER

Mathematics Education Pascasarjana, Universitas Negeri Semarang (Unnes)

# PUBLISHER ADDRESS

Kampus Unnes Kelud Utara III, Semarang, 50237, Indonesia.

# E-JOURNAL

218-224

http://iournal.unnes.ac.id/siu/index.php/uimer

# **Table of Contents**

Share (SSCS) Model to Improve Mathematics Disposition and Student Concept Understanding of Limit Function Materials of XI Natural Science Class  Delta Aringga Rakhmi, Kartono, Zaenuri Mastur  Problem Solving Ability Viewed From The Adversity Quotient on Mathematics Connected Mathematics Project Learning (Cmp) With Etnomathematics Nuanced  Betha Kurnia Suryapuspitarini, Nuriana Rachmani Dewi (Nino Adhi)  Analysis of Problem Solving Ability in Quadrilateral Topic on Model Eliciting Activities Learning Containing Ethnomathematics Kharisma Ilyyana, Rochmad  Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy  Anita Sulistyawati,Dwijanto,Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach  Dyah Febriyana, Hardi Suyitno, Rochmad  189-195  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach  Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle	117-122	Constructtivism Mathematics Learning with Search, Solve, Create, and
Class Delta Aringga Rakhmi, Kartono, Zaenuri Mastur Problem Solving Ability Viewed From The Adversity Quotient on Mathematics Connected Mathematics Project Learning (Cmp) With Etnomathematics Nuanced Betha Kurnia Suryapuspitarini, Nuriana Rachmani Dewi (Nino Adhi) Analysis of Problem Solving Ability in Quadrilateral Topic on Model Eliciting Activities Learning Containing Ethnomathematics Kharisma Ilyyana, Rochmad 138-144 Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto 145-151 The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan 152-160 Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto, Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno 174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Share (SSCS) Model to Improve Mathematics Disposition and Student

Etnomathematics Nuanced Betha Kurnia Suryapuspitarini, Nuriana Rachmani Dewi (Nino Adhi)  Analysis of Problem Solving Ability in Quadrilateral Topic on Model Eliciting Activities Learning Containing Ethnomathematics Kharisma Ilyyana, Rochmad  Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto, Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	123-129	Problem Solving Ability Viewed From The Adversity Quotient on
Betha Kurnia Suryapuspitarini, Nuriana Rachmani Dewi (Nino Adhi)  Analysis of Problem Solving Ability in Quadrilateral Topic on Model Eliciting Activities Learning Containing Ethnomathematics Kharisma llyyana, Rochmad  Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  152-160 Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process  Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability  Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy  Anita Sulistyawati,Dwijanto,Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach  Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach  Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Mathematics Connected Mathematics Project Learning (Cmp) With
Analysis of Problem Solving Ability in Quadrilateral Topic on Model Eliciting Activities Learning Containing Ethnomathematics Kharisma Ilyyana, Rochmad  Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process  Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability  Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy  Anita Sulistyawati,Dwijanto,Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach  Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach  Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Etnomathematics Nuanced
Eliciting Activities Learning Containing Ethnomathematics Kharisma llyyana, Rochmad  138-144 Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  145-151 The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  152-160 Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  161-166 Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto, Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Betha Kurnia Suryapuspitarini, Nuriana Rachmani Dewi (Nino Adhi)
Kharisma llyyana, Rochmad  138-144 Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  145-151 The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  152-160 Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  161-166 Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  167-173 Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability  Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy  Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach  Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach  Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	130-137	Analysis of Problem Solving Ability in Quadrilateral Topic on Model
Analysis of Mathematical Problem Solving Skills using Meta-Cognitive Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Eliciting Activities Learning Containing Ethnomathematics
Strategy from The Perspective of Gender-Based Self-Efficacy Aina Mufida, Hardi Suyitno, Putut Marwoto  The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Kharisma Ilyyana, Rochmad
Aina Mufida, Hardi Suyitno, Putut Marwoto  The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	138-144	,
The Analysis of Mathematical Literacy Skill and Respect to Local Culture toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		•
toward Pogil Learning with Ethnomathematics Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		
Deni Fikri fakhruddin, Masrukan  Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	145-151	· · · · · · · · · · · · · · · · · · ·
Abilities of Mathematical Literacy Based on Self-Confidence in Problem Based Learning with DAPIC Problem-Solving Process Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  161-166 Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		
Based Learning with DAPIC Problem-Solving Process   Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi   161-166   Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach   Husna Nur Dinni, Isnarto, Husna Nur Dinni, Isnarto,     167-173   Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability   Arif Budi Setiawan, Kartono, YL Sukestiyarno     174-181   Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy     Anita Sulistyawati, Dwijanto, Walid     182-188   Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE     Learning with PMRI Approach     Dyah Febriyana, Hardi Suyitno, Rochmad     189-195   Student Critical Thinking Viewed from Mathematical Self-efficacy in     Means Ends Analysis Learning with the Realistic Mathematics Education     Approach   Rofinda Taubah, Isnarto, Rochmad     196-203   Didactical Situations of Students' Mathematical Reasoning Based on the     Learning Obstacle on Quadrilateral Areas		
Nevi Trianawaty Anwar, St. Budi Waluya, Supriyadi  Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	152-160	
Mathematical Connection Abilities and Self-Esteem of Students on Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		
Model-Eliciting Activities Learning with a Realistic Approach Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	161 166	
Husna Nur Dinni, Isnarto,  Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	161-166	
Metacognition Development Through Stad Learning Assisted With   Module by Using Diagnostic Assessment to Improve The Problem Solving   Ability		
Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181 Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		
Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno  174-181  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati,Dwijanto,Walid  182-188  Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	167 172	
Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  Mathematica Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	167-173	Metacognition Development Through Stad Learning Assisted With
Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	167-173	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving
Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	167-173	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability
Srategy Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno
Anita Sulistyawati, Dwijanto, Walid  182-188 Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  189-195 Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of
Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability  Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding
Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas		Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability  Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy
Dyah Febriyana, Hardi Suyitno, Rochmad  Student Critical Thinking Viewed from Mathematical Self-efficacy in  Means Ends Analysis Learning with the Realistic Mathematics Education  Approach  Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the  Learning Obstacle on Quadrilateral Areas	174-181	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid
189-195  Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  196-203  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	174-181	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability  Arif Budi Setiawan, Kartono, YL Sukestiyarno  Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy  Anita Sulistyawati, Dwijanto, Walid  Analysis of Mathematical literacy Ability Viewed From Students'
Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad  Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	174-181	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE
Approach Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	174-181	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach
Rofinda Taubah, Isnarto, Rochmad  196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	174-181 182-188	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad
196-203 Didactical Situations of Students' Mathematical Reasoning Based on the Learning Obstacle on Quadrilateral Areas	174-181 182-188	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad Student Critical Thinking Viewed from Mathematical Self-efficacy in
Learning Obstacle on Quadrilateral Areas	174-181 182-188	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education
	174-181 182-188	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach
Ana Alawiyah, St. Budi Waluya, Andreas Priyono Budi Prasetyo	174-181 182-188 189-195	Metacognition Development Through Stad Learning Assisted With Module by Using Diagnostic Assessment to Improve The Problem Solving Ability Arif Budi Setiawan, Kartono, YL Sukestiyarno Analysis of Mathematic Creative Thinking Ability and Metacognition of Students on Probing-Prompting Learning Models with Scaffolding Srategy Anita Sulistyawati, Dwijanto, Walid Analysis of Mathematical literacy Ability Viewed From Students' Mathematics Self-concept Based on Gender Differences on IMPROVE Learning with PMRI Approach Dyah Febriyana, Hardi Suyitno, Rochmad Student Critical Thinking Viewed from Mathematical Self-efficacy in Means Ends Analysis Learning with the Realistic Mathematics Education Approach Rofinda Taubah, Isnarto, Rochmad
