

TABLE OF CONTENTS

The Feasibility of Supplementing Shisha Research-Based Teaching Materials on Circulatory System Materials to Improve High School Students' Concept Understanding.....	01-08
Implementation of Numbered Heads Together (NHT) Learning Devices with Quiz Kahoot to Improve Student Learning Outcomes and Collaboration Skills in Reproduction System Materials	09-17
The Development of Immune System Teaching Materials to Train Concept Understanding of SMA/MA	18-30
E-LKPD Based on Problem Solving as Innovative Teaching Materials to Improve The Ability to Analyze and Data Presentation on Plant Tissue.....	31-39
The Development of Earth Layer Material Booklet Based on Science Literacy for Junior High School Students.....	40-46
The Development of <i>Tour in Cell</i> Interactive Media to Improve Cognitive Skills of High School Student	47-55
The Application of Discovery Learning Model Assisted by Multi-Representation-Based Teaching Materials on Ecosystem Materials to Improve Students' Critical Thinking Ability and Independent Learning Attitudes	56-68
Development of HOTS Questions with Two-Level Multiple Choice Diagnostic Tests in Environmental Change Learning in Class X SMA/MA Students	69-78
Supplement Teaching Materials Development Based on PBL with Animal Digestive System Material to Increase Concept Mastery of Junior High School Students.....	79-88
The Development Of Interactive E-Book Based On Multiple Intelligences Ecosystem Topic To Train Creative Thinking Skills	89-101
The Effectiveness of Virus Material Booklets as Teaching Material Supplements to Increase Students' Interest in Learning	102-107
The Effectiveness of A Student Facilitator and Explaining Learning Model With A Roundhouse Diagram on Student Activity and Achievement in Virus Material.....	108-114
The Development of Student Worksheets (LKPD) Enviromental Change as Learning Resource for Class X Student of SMA Negeri 2 Wonosobo to Grow Attitude of Enviromental Cleanliness ..	115-118
The Development of Student Worksheets (LKPD) Approaching Natural Exploration (JAS) Plant Materials Class X SMA	119-125
The Development of E-Atlas Avifauna of Surabaya as an Identification Tool of Birds and to Train Environmental Care Character for X Grade Students.....	126-137
